End-of-Program Student Learning Outcomes (EOPSLO)

1. Client-Centered Care: Evaluate nursing care provided to clients and their families from diverse backgrounds in a variety of settings to ensure that it is compassionate, age and culturally appropriate and based on a client's preferences, values and needs.
2. Team Work and Collaboration: Collaborate with members of the inter-professional healthcare team to manage and coordinate the provision of safe, quality care for clients and their families.
3. Evidence Based Practice: Demonstrate use of best current evidence and clinical expertise when making clinical decisions in the provision of client-centered care.
4. Quality Improvement: Utilize evidence-based quality improvement processes to affect change in the delivery of client-centered care.
5. Safety: Demonstrate effective use of strategies to mitigate errors and reduce the risk of harm to clients, self, and others in healthcare, home, and community settings.
6. Informatics: Utilize evidence-based information and client care technology to communicate relevant client information, manage care and mitigate error in the provision of safe, quality client-centered care.
7. Professionalism: Assimilate integrity and accountability into practices that uphold established regulatory, legal, and ethical principles while providing client-centered, standard-based nursing care.
8. Leadership: Utilize leadership, management and priority-setting skills in the provision and management of safe, quality client-centered care.
