	<p>** The faculty believe that the ELA is set too high. Per the ATI Score Explanation and Interpretation regarding proficiency levels, Level one is considered to meet the absolute minimum expectations for performance in the content area and that the student is likely to just meet NCLEX-RN standard in the content area. In addition to meeting the minimum standards, students remediate and present the remediation based on the level scored per the RNSG 2030/2023B ATI Leadership Rubric before they take the comprehensive predictor. The faculty voted and agreed to change the ELA for the Fall 2022 admission cohort student for evaluation being Summer 2023 from a Level II to a Level I.</p>
